MB <sup>1</sup>	Clause No./ Subclause No./ Annex (e.g. 3.1)	Paragraph/ Figure/Table/ Note (e.g. Table 1)	Type of com- ment <sup>2</sup>	Comment (justification for change) by the MB	Proposed change by the MB	Secretariat observations on each comment submitted
US	T04-14.01, <compound statement>		te	<p>According to Framework 6.3.3.8 “General Rules not terminated on exception conditions”, the GRs of this Subclause are not terminated on an exception. We should scrutinize whether that is completely true. If it is true, it would be helpful to note that fact as the first GR. If it is only partially true, we might isolate the pseudocode that does not terminate on an exception in its own subclause, with a first GR noting that the subclause does not terminate on exceptions.</p> <p>Similar remarks apply to 14.2 &lt;handler declaration&gt;.</p>	None provided with comment.	
US	T04-No specific location		te	All problems discovered during the course of the ballot resolution process must be satisfactorily resolved.	None provided with comment.
